INDEX TO VOLUME 65A

January to December 1961

A

Page.

Acetamido pyranoid derivatives and reducing, acetylated pyranoses, infrared absorption spectra ... 31
Acidity functions, values of the quantity $p(a_{HYCl})$ for buffer solutions from 0 to 95 °C ... 495
Adams, L. H., R. M. Waxler, Effect of hydrostatic pressure upon the relaxation of birefringence in amorphous solids ... 283
Additives, effect on flame speed of methane ... 513
Alkali silicate binary glasses, vitrons as flow units ... 117
Ammonium perchlorate, sodium perchlorate, and lithium perchlorate, heats of formation ... 66
Amorphous solids, effect of hydrostatic pressure upon the relaxation of birefringence ... 283
Anion exchange, separation of hafnium from zirconium ... 75
Anistropic polymer system, extension of the Flory-Rehner theory of swelling ... 485
Aragonite, calcite, and vaterite type structures in the borates, carbonates, and nitrates, infrared studies of ... 173
Arc spectrum of iron (Fe I), faint lines in ... 1
Association of isomeric chlorobenzoic and toluic acids with 1,3-diphenylguandine in benzene, thermodynamic constants for ... 209

B

Barium oxide-niobium pentoxide, phase equilibrium relations in the binary system ... 337
Bars of square cross section, torsional resonance vibrations ... 167
Bates, R. G., V. E. Bower, M. Paabo, A standard for the measurement of the *p*H of blood and other physiological media ... 267
—, *R. Gary,* Acidity functions. Values of the quantity $p(a_{HYCl})$ for buffer solutions from 0 to 95 °C ... 495
Berman, H. A., E. S. Newman, Heat of formation of calcium aluminate monocarbonate at 25 °C ... 197
Beryllium chloride, heat of formation ... 59
Binary glasses, alkali silicate, vitrons as flow units ... 117
Binary system barium oxide-niobium pentoxide, phase equilibrium relations ... 337
Birefringence in amorphous solids, effect of hydrostatic pressure upon the relaxation ... 283
Blood *p*H and other physiological media, measurement standard ... 267
Borazine, $B_3N_3H_6$, heat of combustion of ... 101
Bower, V. E., M. Paabo, R. G. Bates, A standard for the measurement of the *p*H of blood and other physiological media ... 267
Bremsstrahlung beams, calibration of a monitor for use in ... 401
Brodd, R. J., Electrical properties and kinetics of electrode reactions ... 275
Bromofluoroalkanes, preparation of fluoro- and bromofluoro-aryl compounds by copyrolysis ... 239
Bromofluoroaryl and fluoro-compounds by copyrolysis of bromofluoroalkanes, preparation ... 239
Bromine, 2000 to 13000 A, wavelengths and intensities in the first spectrum ... 159
Bruck, S. D., Extension of the Flory-Rehner theory of swelling to an anisotropic polymer system ... 485
—, Fiber structure-property relationships: a disulfide-crosslinked self-crimping polyamide ... 489
Buffer solutions from 0 to 95 °C, values of the quantity $p(a_{HYCl})$ ... 495
Bulk polymers with chain folding; crystallization of, theory of growth of lamellar spherulites ... 297
Butadiene and propylene, reaction of sulfur, hydrogen sulfide, and accelerators ... 79

C

Calcium aluminate monocarbonate at 25 °C, heat of formation ... 197
Calculated energy dissipation distribution in air by fast electrons from a gun source ... 113
Calibration of a monitor for use in bremsstrahlung beams ... 401
Cations, trivalent, solid state reactions involving oxides ... 345
Chloride, beryllium, heat of formation ... 59
Comparison of lens response for sinusoidal and square-wave targets at several focal positions ... 465
Computable capacitor, evaluation of the NBS unit of resistance ... 147
Conformations of the pyranoid sugars. IV. Infrared absorption spectra of some fully acetylated pyranoses ... 249
Copyrolysis of bromofluoroalkanes, preparation of fluoro- and bromofluoroaryl compounds ... 239
Corliss, C. H., J. L. Tech, Wavelengths and intensities in the first spectrum of bromine, 2000 to 13000 A ... 159
Creitz, E. C., Inhibition of diffusion flames by methyl bromide and trifluoromethyl bromide applied to the fuel and oxygen sides of the reaction zone ... 389
Crew, J. E., Calculated energy dissipation distribution in air by fast electrons from a gun source ... 113
Cross section, torsional resonance vibrations of uniform bars ... 167
Crystallization of bulk polymers with chain folding: theory of growth of lamellar spherulites ... 297
Curtis, A. J., Dielectric properties of polyamides: polyhexamethylene adipamide and polyhexamethylene sebacamide ... 185
Cutkosky, R. D., Evaluation of the NBS unit of resistance based on a computable capacitor ... 147

D

Page.

Dannemiller, M. C., I. Nimeroff, J. R. Rosenblatt, Variability of spectral tristimulus values ... 475
Davis, M. M., H. B. Hetzer, Thermodynamic constants for association of isomeric chlorobenzoic and toluic acids with 1,3-diphenylguanidine in benzene ... 209
Deuteroethanes, mass spectra of some ... 93
Dibeler, V. H., J. T. Herron, Mass spectrometric study of NF_2, NF_3, N_2F_2, and N_2F_4 ... 405
Diborane, *N*-dimethylamino-, heat of formation ... 71
Dielectric properties of polyamides: polyhexamethylene adipamide and polyhexamethylene sebacamide ... 185
Dimethoxychloroborane, formation, and hydrolysis, heats ... 435
Dioxide from 298 to 1,200 °K, thermodynamic properties of thorium ... 105
Disulfide-crosslinked self-crimping polyamide, fiber structure-property relationships ... 489
Distribution in air by fast electrons from a gun source, calculated energy dissipation ... 113
Douglas, T. B., A. C. Victor, Thermodynamic properties of thorium dioxide from 298 to 1,200 °K ... 105

E

Effect of hydrostatic pressure upon the relaxation of birefringence in amorphous solids ... 283
Effect of perchloryl fluoride additions on the flame speed of methane ... 513
Electrical properties and kinetics of electrode reactions ... 275
Electrode reactions, electrical properties and kinetics ... 275
Emara, S. H., Comparison of lens response for sinusoidal and square-wave targets at several focal positions ... 465
—, Wavelength shifts in Hg^{198} as a function of temperature ... 473
Equilibrium relations in the binary system barium oxide-niobium pentoxide, phase ... 337
Ethylene and propylene, pyrolysis of linear copolymers ... 221
Eu_2O_3-In_2O_3 system, phase equilibria in systems involving the rare earth oxides ... 429
Evaluation of the NBS unit of resistance based on a computable capacitor ... 147
Extension of the Flory-Rehner theory of swelling to an anisotropic polymer system ... 485

F

Faint lines in the arc spectrum of iron (Fe I) ... 1
Fast electrons from a gun source, calculated energy dissipation distribution in air ... 113
Fearn, J. E., L. A. Wall, W. J. Pummer, R. E. Lowry, Preparation of fluoro- and bromofluoroaryl compounds by copyrolysis of bromofluoroalkanes ... 239
Fiber structure-property relationships: a disulfide-crosslinked self-crimping polyamide ... 489
First spectrum of bromine, 2000 to 13000 A, wavelengths and intensities in ... 159
Flame speed of methane, effect of perchloryl fluoride additions ... 513
Flames by methyl bromide and trifluoromethyl bromide applied to the fuel and oxygen sides of the reaction zone, inhibition of diffusion ... 389
Florin, R. E., L. A. Wall, Gamma irradiation of fluorocarbon polymers ... 375
Flory-Rehner swelling theory, extension to anisotropic polymer system ... 485
Flow units in alkali silicate binary glasses, vitrons ... 117
Fluoro- and bromofluoroaryl compounds by copyrolysis of bromofluoroalkanes, preparation ... 239
Fluorocarbon polymers, gamma irradiation of ... 375
Fluorocarbon polymers, pyrolysis ... 227
Focal points, comparison of lens response for sinusoidal and square-wave targets ... 465
Formation of calcium aluminate monocarbonate at 25 °C, heat ... 197
Formation of potassium borohydride, heats of hydrolysis ... 97
Formation of trimethylborane, triethylborane, and tri-*n*-butylborane, heats of combustion ... 215
Formula type AB_4O_9, tetragermanates, strontium, lead, and barium ... 127
Franck-Condon factors to high vibrational quantum numbers I: N_2 and N_2^+ ... 451
Frush, H. L., L. J. Sniegoski, H. S. Isbell, Tritium labeled compounds VII. Isotope effects in the oxidation of D-mannitols-C^{14} and D-mannitols-*t* to D-fructoses ... 441
Fuel and oxygen sides of the reaction zone, inhibition of diffusion flames by methyl bromide and trifluoromethyl bromide ... 389
Fuller, E. G., E. Hayward, Calibration of a monitor for use in bremsstrahlung beams ... 401

G

Gamma irradiation of fluorocarbon polymers ... 375
Gary, R., R. G. Bates, Acidity functions. Values of the quantity $p(a_{HYCl})$ for buffer solutions from 0 to 95 °C ... 495
Gilliland, A. A., W. H. Johnson, Heat of decomposition of potassium perchlorate ... 63
—, —, Heat of formation of beryllium chloride ... 59
—, —, Heats of formation of lithium perchlorate, ammonium perchlorate, and sodium perchlorate ... 66
Glasses, alkali silicate binary, vitrons as flow units ... 117

H

Page

Hafnium from zirconium by anion exchange, separation ... 75
Hague, J. L., L. A. Machlan, Separation of hafnium from zirconium by anion exchange ... 75
Halpern, C., Effect of perchloryl fluoride additions on the flame speed of methane ... 513
Hampson, R. F., R. E. Walker, Vapor pressures of platinum, iridium, and rhodium ... 289
Hayward, C., E. G. Fuller, Calibration of a monitor for use in bremsstrahlung beams ... 401
Heat content of thorium dioxide from 298 to 1,200 °K ... 105
Heat of combustion of borazine, $B_3N_3H_6$ ... 101
Heat of decomposition of potassium perchlorate ... 63
Heat of formation of beryllium chloride ... 59
Heat of formation of calcium aluminate monocarbonate at 25 °K ... 197
Heat of formation of *N*-dimethylaminodiborane ... 71
Heats of combustion and formation of trimethylborane, triethylborane, and tri-*n*-butylborane ... 215
Heats of formation of lithium perchlorate, ammonium perchlorate, and sodium perchlorate ... 66
Heats of hydrolysis and formation of dimethoxychloroborane ... 435
Herron, J. T., Rate of the reaction NO+N, and some heterogeneous reactions observed in the ion source of a mass spectrometer ... 411
—, *V. H. Dibeler,* Mass spectrometric study of NF_2, NF_3, N_2F_2, and N_2F_4 ... 505
Heterogeneous reactions observed in the ion source of a mass spectrometer rate of the reaction NO+N ... 411
Hetzer, H. B., M. M. Davis, Thermodynamic constants for association of isomeric chlorobenzoic and toluic acids with 1,3-diphenylguanidine in benzene ... 209
Hg^{198} as a function of temperature, wavelength shifts ... 473
High vibrational quantum numbers I: N_2 and N_2^+, Franck-Condon factors ... 451
Hoffman, J. D., J. I. Lauritzen, Jr., Crystallization of bulk polymers with chain folding: theory of growth of lamellar spherulites ... 297
Humites $nMg_2SiO_4 \cdot Mg(F,OH)_2$, synthesis ... 415
Hydrogen sulfide, sulfur, and accelerators, reaction of with propylene and butadiene ... 79
Hydrolysis and formation of dimethoxychloroborane, heats ... 435
Hydrostatic pressure, effect upon the relaxation of birefringence in amorphous solids ... 283

I

Infrared absorption spectra of some 1-acetamido pyranoid derivatives and reducing, acetylated pyranoses ... 31
Infrared absorption spectra of some fully acetylated pyranoses, conformations of the pyranoid sugars ... 249
Infrared studies of aragonite, calcite, and vaterite type structures in the borates, carbonates, and nitrates ... 173
Inhibition of diffusion flames by methyl bromide and trifluoromethyl bromide applied to the fuel and oxygen sides of the reaction zone ... 389
International practical temperature scale of 1948 ... 139
Iridium, platinum, and rhodium, vapor pressures ... 289
Isbell, H. S., L. J. Sniegoski, H. L. Frush, Tritium labeled compounds VII. Isotope effects in the oxidation of D-mannitols-C^{14} and D-mannitols-*t* to D-fructoses ... 441
—, *R. S. Tipson,* Conformations of pyranoid sugars. IV. Infrared absorption spectra of some fully acetylated pyranoses ... 249
—, —, Infrared absorption spectra of some 1-acetamido pyranoid derivatives and reducing, acetylated pyranoses ... 31
Isomeric chlorobenzoic and toluic acids with 1,3-diphenylguanidine in benzene, thermodynamic constants of association ... 209
Isopropylidene-α-D-lyxofuranose, the monoacetone-D-lyxose of Levene and Tipson ... 507
Isotope effects in the oxidation of D-mannitols-C^{14} and D-mannitols-*t* to D-fructoses, tritium labeled compounds VII ... 441

J

Jaffe, I., W. H. Johnson, E. J. Prosen, Heat of formation of *N*-dimethylaminodiborane ... 71
Johnson, W. H., A. A. Gilliland, Heat of decomposition of potassium perchlorate ... 63
—, —, Heat of formation of beryllium chloride ... 59
—, —, Heats of formation of lithium perchlorate, ammonium perchlorate, and sodium perchlorate ... 66
—, *I. Jaffe, E. J. Prosen,* Heat of formation of *N*-dimethylaminodiborane ... 71
—, *M. V. Kilday, E. J. Prosen,* Heat of combustion of borazine, $B_3N_3H_6$ ... 101
—, —, —, Heats of combustion and formation of trimethylborane, triethylborane, and tri-*n*-butylborane ... 215
—, —, —, Heats of hydrolysis and formation of dimethoxychloroborane ... 435
—, *I. H. Wilson, R. B. Schumm,* Heats of hydrolysis and formation of potassium borohydride ... 97

K

Kiess, C. C., V. C. Rubin, C. E. Moore, Faint lines in the arc spectrum of iron (Fe I) ... 1
Kilday, M. V., W. H. Johnson, E. J. Prosen, Heat of combustion of borazine, $B_3N_3H_6$ ... 101
—, —, —, Heats of combustion and formation of trimethylborane, triethylborane, and tri-*n*-butylborane ... 215
—, —, —, Heats of hydrolysis and formation of dimethoxychloroborane ... 435
Kinetics of electrode reactions, electrical properties ... 275

CONTENTS OF VOLUME 65A

Volume 65A—No. 1—January–February 1961

Page

Faint lines in the arc spectrum of iron (FeI). Carl C. Kiess, Vera C. Rubin, and Charlotte E. Moore 1

Infrared absorption of spectra of some l-acetamido pyranoid derivatives and reducing, acetylated pyranoses. R. Stuart Tipson and Horace S. Isbell 31

Monolayers of linear saturated succinate polyesters at air-liquid interfaces. Wendell M. Lee, J. Leon Shereshefsky, and Robert R. Stromberg 51

Heat of formation of beryllium chloride. Walter H. Johnson and Alexis A. Gilliland 59

Heat of decomposition of potassium perchlorate. Walter H. Johnson and Alexis A. Gilliland 63

Heats of formation of lithium perchlorate, ammonium perchlorate, and sodium perchlorate. Alexis A. Gilliland and Walter H. Johnson 66

Heat of formation of *N*-dimethylaminodiborane. Walter H. Johnson, Irving Jaffe, and Edward J. Prosen 71

Separation of hafnium from zirconium by anion exchange. John L. Hague and Lawrence A. Machlan 75

Reaction of sulfur, hydrogen sulfide, and accelerators with propylene and butadiene. Frederic J. Linning, Edwin J. Parks, and Leo A. Wall 79

Volume 65A—No. 2—March–April

Page

Mass spectra of some deuteroethanes. Edith I. Quinn and Fred L. Mobler 93

Heats of hydrolysis and formation of potassium borohydride. Walter H. Johnson, Richard H. Schumann, Isa H. Wilson, and Edward J. Prosen 97

Heat of combustion of borazine $B_3N_3H_6$. Marthada V. Kilday, Walter H. Johnson, and Edward J. Prosen 101

Thermodynamic properties of thorium dioxide from 298 to 1,200 °K. Andrew C. Victor and Thomas B. Douglas 105

Calculated energy dissipation distribution in air by fast electrons from a gun source. John E. Crew 113

Vitrons as flow units in alkali silicate binary glasses. Leroy W. Tilton 117

Tetragermanates of strontium, lead, and barium of formula type AB_4O_9. Carl R. Robbins and Ernest M. Levin 127

Volume 65A—No. 3—May–June 1961

Page

International practical temperature scale of 1948. Text revision of 1960. H. F. Stimson ... 139

Evaluation of the NBS unit of resistance based on a computable capacitor. Robert D. Cutkosky ... 147

Wavelengths and intensities in the first spectrum of bromine, 2000 to 13000 A. Jack L. Tech and Charles H. Corliss ... 159

Torsional resonance vibrations of uniform bars of square cross section. Wayne E. Tefft and Sam Spinner ... 167

Infrared studies of aragonite, calcite, and vaterite type structures in the borates, carbonates, and nitrates. C. E. Weir and Ellis R. Lippincott ... 173

Dielectric properties of polyamides: polyhexamethylene adipamide and polyhexamethylene sebacamide. Alexander J. Curtis ... 185

Heat of formation of calcium aluminate monocarbonate at 25 °C. H. A. Berman and E. S. Newman ... 197

Thermodynamic constants for association of isomeric chlorobenzoic and toluic acids with 1,3-diphenylguanidine in benzene. Marion Maclean Davis and Hannah B. Hetzer ... 209

Heats of combustion and formation of trimethylborane, triethylborane, and tri-*n*-butylborane. Walter H. Johnson, Marthada V. Kilday, and Edward J. Prosen ... 215

Pyrolysis of linear copolymers of ethylene and propylene. Sidney Straus and Leo A. Wall ... 221

Pyrolysis of fluorocarbon polymers. Leo A. Wall and Sidney Straus ... 227

Preparation of fluoro- and bromofluoroaryl compounds by copyrolysis of bromofluoroalkanes. Leo A. Wall, James E. Fearn, Walter J. Pummer and Robert E. Lowry ... 239

Thermal stability of polydivinylbenzene and of copolymers of styrene with divinylbenzene and with tribinylbenzene. Sidney Straus and Samuel L. Madorsky ... 243

Conformations of the pyranoid sugars. IV. Infrared absorption spectra of some fully acetylated pyranoses. R. Stuart Tipson and Horace S. Isbell ... 249

A standard for the measurement of the *p*H of blood and other physiological media. Vincent E. Bower, Maya Paabo, and Roger G. Bates ... 267

Volume 65A—No. 4—July–August 1961

Page

Electrical properties and kinetics of electrode reactions. Ralph J. Brodd ... 275

Effect of hydrostatic pressure upon the relaxation of birefrigence in amorphous solids. Roy M. Waxler and Leason H. Adams ... 283

Vapor pressures of platinum, iridium, and rhodium. R. F. Hampson, Jr., and R. F. Walker ... 289

Crystallization of bulk polymers with chain folding: theory of growth of lamellar spherulites. John D. Hoffman and John I. Lauritzen, Jr ... 297

Phase equilibrium relations in the binary system barium oxide-niobium pentoxide. R. S. Roth and J. L. Waring ... 337

Solid state reactions involving oxides of trivalent cations. S. J. Schneider, R. S. Roth, and J. L. Waring ... 345

Gamma irradiation of fluorocarbon polymers. Roland E. Florin and Leo A. Wall ... 375

Inhibition of diffusion flames of methyl bromide and trifluoromethyl bromide applied to the fuel and oxygen sides of the reaction zone. E. C. Creitz ... 389

Volume 65A—No. 5—September–October 1961

Page

Calibration of a monitor for use in bremsstrahlung beams. E. G. Fuller and Evans Hayward 401

Mass spectrometric study of NF_2, NF_3, N_2F_2, and N_2F_4. John T. Herron and Vernon H. Dibeler 405

Rate of the reaction NO+N, and some heterogeneous reactions observed in the ion source of a mass spectrometer. John T. Herron 411

Synthesis of the humites $n Mg_2SiO_4 \cdot Mg(F,OH)_2$. A. Van Valkenburg 415

Phase equilibria in systems involving the rare earth oxides. Part III. The Eu_2O_3-In_2O_3 system. S. J. Schneider 429

Heats of hydrolysis and formation of dimethoxychloroborane. Marthada V. Kilday, Walter H. Johnson, and Edward J. Prosen 435

Tritium-labeled compounds VII. Isotope effects in the oxidation of D-mannitols-C^{14} and D-mannitols-*t* to D-fructoses. Lorna T. Sniegoski, Harriet L. Frush, and Horace S. Isbell 441

Franck-Condon factors to high vibrational quantum numbers I: N_2 and N_2^+. R. W. Nicholls 451

Volume 65A—No. 6—November–December 1961

Page

Comparison of lens response for sinusoidal and square-wave targets at several focal positions. Sayeda H. Emara 465

Wavelength shifts in Hg^{198} as a function of temperature. Sayeda H. Emara 473

Variability of spectral tristimulus values. Isadore Nimeroff, Joan R. Rosenblatt, and Mary C. Dannemiller 475

Extension of the Flory-Rehner theory of swelling to an anisotropic polymer system. Stephen D. Bruck 485

Fiber structure-property relationships: a disulfide-crosslinked self-crimping polyamide. Stephen D. Bruck 489

Acidity functions. Values of the quantity $p(a_H\gamma_{Cl})$ for buffer solutions from 0 to 95 °C. Roger G. Bates and R. Gary 495

2,3-*O*-Isopropylidene-α-D-lyxofuranose, the monoacetone-D-lyxose of Levene and Tipson. Robert Schaffer 507

Effect of perchloryl fluoride additions on the flame speed of methane. Carl Halpern 513

U.S. GOVERNMENT PRINTING OFFICE: 1962
